Kittitus Udomkanyingyos
Computer Engineering

Personal Profile

Name : Kittitus Udomkanyingyos
Nickname : Ball
Birthdate : 27 June 2003
Age : 22
Nationality : Thai

I am currently pursuing a Bachelor's degree in Information Technology at Sripatum University, with a strong interest in Frontend development and fundamental experience in Backend. I am skilled in implementing designs through clean coding and debugging, and I also have some hands-on experience with Hardware. I am actively seeking an internship opportunity to enhance my technical expertise, adaptability, and gain valuable professional experience.

Education

2021-Present : Sripathum University
Bachelor of Science Information Technology, Major in computer Engineering

2018-2021 : Wachirathamsatit School
Science-Mathematics programs

Contact

Soft Skill

- Adaptability
- Communication
- Teamwork
- Problem solving

Hard Skill

- HTML
- Embedded System - Arduino, ESP
- Programming Languages JavaScript, CSS

Technical Skill

- Visual Studio Code
- MSSQL server management
- Android studio
- React native framework
- UX/UI Tools - Canva, Figma

Project Experience

Match intern | React+MSSQL+Node.js FEB 2025-APR 2025
- Used JavaScript to make Userprofile UI.
- Designed a database in MSSQL and fetching.
- Collaborated with teams in designing various UIs in Figma.

Weather Predict AI | ESP32 + MQTTX JAN 2025-APR 2025
- Wired and arranged the sequence of the sensor operations.
- Connected a microcontroller to MQTTX for sensor data transmission, storing the data for AI prediction.

Shopping website | HTML+CSS+PHP OCT 2024-DEC 2025
- Used HTML and CSS to design register/login ui
- Developed backend with phpMyAdmin for functional user registration and login system.
